

NTNU Partner

L^AT_EX-BEAMER STYLE FOR NTNU

Demo of the `plain` style including a partner logo

Author Name

December 3, 2021

A slide in plain style including a partner logo

This style is set up with

```
\usetheme[slogan=english, style=plain, partner=true]{NTNU}
```

and the logos of the collaboration partners are set with

```
\partnerlogos{ntnu_partner_neg.png}{ntnu_partner.png}
```

The plain style displays the second logo of the collaboration partner (ntnu_partner.png) in the bottom center of each slide while the first logo (ntnu_partner_neg.png, preferable white/light colors) is placed above the title (see previous slide). Since the partner logo is placed next to the title logo of NTNU, the title logo is changed to a smaller version with

```
\titlelogo{ntnu_uten_slagord_neg.png}
```
